

# L'éditeur de règles

## Présentation

L'éditeur de règles de synchronisation sert à afficher et modifier la configuration par défaut. Il se trouve dans le menu Démarrer, sous le groupe Azure AD Connect sur le serveur sur lequel est installé AD Azure Connect.

Synchronization Rules Editor

View and manage your synchronization rules

Direction: Inbound MV Object Type: Connector: Connector Object Type: Disabled: \*

Password Sync: \* MV attribute: Connector Attribute: Rule Type:

Add new rule

| Name  | Connector                           | Precedence | Connector Object Type    | Metaverse Object Type |
|---|-------------------------------------|------------|--------------------------|-----------------------|
| In from AD - User Join                        | m2i2018.LOCAL                       | 100        | user                     | person                |

## Autre solution

Le plus simple pour **modifier** les paramètres de Azure AD Connect, si cela suffit, est de **relancer l'assistant** Azure AD Connect. Selon les paramètres déjà utilisés, l'assistant propose des options différentes.
